

A large rectangular area with rounded corners, outlined by a thick orange border. The interior is white and contains ten horizontal dotted lines, providing space for writing.

Activity Page

1. On page 1, you can see what Elvis, Josué and Patrick do with their friends. They each tell a story. What about you? What do you do with your friends? You can write your story in the frame A of Page 3 and send it to Taporí

2. Elvis, Josué and Patrick tell us that the key to friendship is sharing. And you? Do you like to share with your friends? You can write your own message or make a nice drawing inside the colored cards, frame B, page 3. Cut them out and share them with your friends or other people around you. You can also exchange them with others.

3. You can make your puppet, based on your story. Show it to your friends, or in school and tell your story to explain what your puppet is about. Send your puppet and your story to Taporí.

We hope to receive your story and your puppet! They will travel and go to other places to meet children who also wrote true stories in other parts of the world.
