

THE FIRST 100 SUPPORTERS

One hundred people accepted to support the Stop Poverty All Together in Dignity Call to Action before it was launched.

Our supporters come from around the world. Some live the daily fight against poverty, whether in housing projects, villages, shanty towns, big cities, or rural communities.

Others are artists, writers, jurists, legislators, athletes, social workers, educators, scientists, journalists, members of international institutions and foundations, figures of politics, economics, or religion, who support the fight to end poverty.
