

## TAPORI LETTER – N°428

Dear Tapori,

We hope this Tapori Newsletter finds you well in spite of the coronavirus pandemic. Many of you have told us what you are going through at this difficult time: your fear of catching the disease, your joy of being with your family, your worry for your friends and how you miss them.

Some of you are telling us that school is a way to get a job, to get out of poverty and that you want to learn to help your parents out of poverty. This is why in the first part of the letter we invite you to think about school. You will then find news from Taporí groups, and some fun, creative, ecological and physical activities.
