

**Welcome to these two new Tapori groups**

**CAMEROON**

In May, the children from the school of Petite Dan and Sarah Foundation read the Tapori newsletter together. They were happy to see pictures and messages from their group.

During this day they also played games.

**MAYOTTE**

The children answered the question: **"What do you need to be happy in your family?"** They wrote down answers and hung them on a tree in the garden. Here are some of them:

- walk together
- helping each other
- you have to love each other
- being there for each other when things are hard
- always have faith in your family
- respect yourself
- have fun
- we can help our mother do cooking and cleaning

They end each meeting with music.

They made a mobile.

**FRANCE**

Here are messages and drawings from children from a primary school in Marseille.

**"My name is Akram. I am 10 years old. I like playing football, eating and taking care of myself."**

**"I come from Mayotte, but I live in France. For me, school is my entire future, my knowledge, my life. I would like everybody to live a nice life."**

Anbdoullah, 11 years old

**"I like school. I hope you like it too."**

Soumayati, 11 years old

**MAURITIUS**

The children of Albion made this lovely mobile and some beautiful drawings

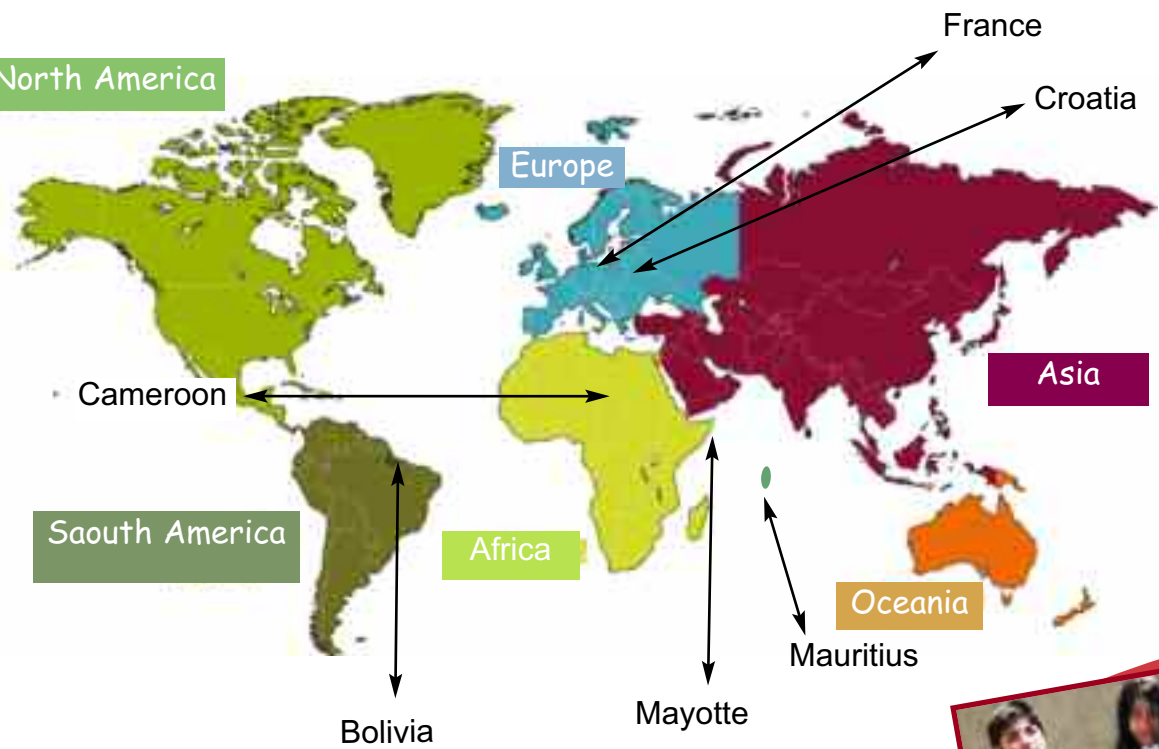

**"I drew a flower and a butterfly because I like nature and I like to protect them."**

This is where you find Cameroon, Croatia, France, Mauritius, Mayotte and Bolivia

North America

Now you will find out about a Tapori group from La Paz in Bolivia.

**The Páter Noster Tapori Group**

The Páter Noster Tapori group joined the Tapori friendship network in 2010 thanks to Professor Sulma Cayoja. The children meet in the private school "Páter Noster" which is in the San Antonio neighbourhood of La Paz. In the group there are children with handicaps who try to integrate into school in various ways. Two years ago, a girl in the group was losing her eyesight and loud noises were disturbing to her. To help her, the other children drew up a "Silence Agreement" with the help of the teacher.
