

## Context

In an ever-changing world, the children of today are the builders of tomorrow.

Tapori is founded on **friendship, solidarity and collective participation**, and over the years it has been inviting every child, every family and every community to come together to build a better future.

The theme of this year's campaign is '**Together building Tapori in the world**'. This campaign invites us to build bridges between cultures in order to foster strong bonds between children and promote an environment that respects children's rights. **Friendship and solidarity are essential values in Tapori's vision** as they enable us to weave links of support and understanding between us, whatever our origin or culture.

Building together calls for **children's active participation in projects**, valuing their opinions, encouraging them to take initiative and giving them space to express themselves. This year, together, we're going to give shape to Tapori in the world based on our ideas and know-how and looking towards joint-participation.

Together, we will lay the foundations on which Tapori in the world will be built.

To do this, we need to give **our strength and energy** throughout the year to think together about how we are going to build a world **without poverty**.

Because we, the Tapori of the world, are full of hope and courage. **Let's get together with no barriers to build world-wide Tapori** with our writings, drawings, ideas, our opinions and our dreams for the Tapori movement.

**D**ear Tapori children, this exercise of **building together** will allow us, the new Tapori International team and all of you to get to know one another better. And at the heart of this will be your hopes and dreams for **a world of peace, friendship sharing and solidarity.**

At the end of the year, we'll be sharing with you images of the activities and achievements of each group around the world in the Tapori Newsletter. This will be the opportunity to celebrate the good times you have had during your Tapori activities around the world, and to form **a Tapori "continent" that brings together everything you've done during the year.**
