

# TAPORI NEWSLETTER

Tapori is a worldwide friendship network which brings together children from different backgrounds who want all children to have the same chances.

They learn from children whose everyday life is very different from theirs. They think and act for a fairer world by inventing a way of living where no one is left behind.

## CAMPAIGN 2025

No. 452

July - August - September 2025

The letter is a resource that brings (the) **world's children together**.

Tapori children are creating a path to happiness and a better future through their messages about friendship, **sharing, solidarity, art and expression**.

All over the world, children have important things to express through their **creative skills**: drawing, speaking, music, dance, or theatre.

**Art and expression** are key, because they allow every child to feel valued, reveal their talents, learn from others, and change the world around them with **their courage and their hopes**. They also inspire other children to imagine a fairer world and to work **together** to make it happen.

# CHILDREN SPEAK OUT...

## Feisali from Tanzania

I want to tell the Taporu children in the Democratic Republic of Congo (Goma and Bukavu) to stay brave and strong during this time of war. I encourage you to love one another and remain united.

## Jessim from Lyon

I took part in the knowledge and arts festival. During this event, I did lots of fun things, I learned how to make a rocket out of a water bottle, I painted a picture of the night sky, and I also chopped wood to help others build their lamps.

## Miora from Madagascar

I would like my neighbourhood to be clean so that people don't get sick. I encourage all children around the world to take care of their environment, to stay healthy.

## Yanine from Bolivia

I am sad when my classmates don't want to play with other children. I would like all children to be friends and play together.
